

Hosted by:  
CoPPA London

## Complex capacity assessments: A clinician's perspective

A training and networking event hosted by London CoPPA to discuss the complexities of mental capacity assessments. Focusing on the challenges faced when assessing individuals with brain injuries who have 'fluctuating capacity' and how to identify the Frontal Lobe Paradox (the 'knowing and doing dissociation')

### Speakers:

- **Dr Jonathan Hinchliffe** is a Principal Clinical Psychologist and MCA/DoLS Manager at the Royal Hospital for Neuro-disability at Putney
- **Dr Richard Irwin** is a Consultant Clinical Psychologist and MCA/DoLS Lead at the Royal Hospital for Neuro-disability at Putney
