

Reforming the Mental Health Act: Have your say on the consultation proposals

CoPPA plans to submit a response to the public consultation on Reforming the Mental Health Act, focusing particularly on issues which overlap with Mental Capacity. This seminar/focus group will:

- Provide an overview of the proposals outlined in the consultation on reforming the Mental Health Act
- give members an opportunity to put forward their own views on those proposals to feed into the CoPPA response to the consultation

The seminar will be jointly led by medically and legally-qualified CoPPA members, and participation from a range of professional disciplines is strongly encouraged – no prior knowledge of the consultation proposals required.

Date: Thursday, 25th March

Time: 4:00-5:30

Zoom webinar - No charge
